## Description

**Vojvodina ICT Cluster - VOICT** provides a single point of contact with the best companies in Serbia, with the total workforce of 2,000+ experienced IT. VOICT builds long-term relationships based on trust and quality, bringing expertise, experience and *passion for excellence* to each and every project.

The member companies made a noticeable breakthrough on world markets, putting Serbia on the map as a very interesting alternative location for development of sophisticated software. Vojvodina ICT Cluster gives institutional support to this trend, while strong support from the University of Novi Sad adds to the strength of the cluster.

Strategic objective of Vojvodina ICT Cluster is to increase visibility of Serbian ICT and put Novi Sad on the world map as the hotbed for software development.
