## Bilateral Meetings

- May 22, 13:30 - 17:30

### Description

CACTTUS is the leading Kosovar Company in the field of ICT services and solutions. Our portfolio of services includes ICT consulting, telecommunications and networking, system integration, implementation, software development services and solutions, training and support. With highly skilled engineers, specialists and developers onboard, equipped with most reputable industry certifications, we provide integrated turn-key ICT solutions to our customers. By designing and implementing modern and adaptable ICT infrastructure and solutions for our customers, we help our customers streamline their operations and grow their business.

With over 10 years of company experience, and more than 25 years of individual experiences of our founders, we have earned a reputation for high performance and reliability that is based on providing our customers with services and products that represent innovation and quality to a wide range of industries.

Our core business is the development and systems integration in the ICT field. CACTTUS provides a complete set of services in the life cycle of integrated end-to-end ICT systems, such as consulting, systems design and planning, project management, research and development, delivery of various system components (hardware and software), systems implementation and integration, support and maintenance of operational systems.
